Again for Donna--it's sometimes like trying to read text messages on a teenager's cell phone!@fisher1000 at 17:54 PM, 28 Jun 2010 via web

Ann, I think that's a good way to think about all of these technologies: adding a new dimension to existing structures! Make learning NEW! @fisher1000 at 17:58 PM, 28 Jun 2010 via web

Today's Meet pulls in tweets with specific hashtag. Did I miss it? Cool! Helen at 18:00 PM, 28 Jun 2010 via web

Helen...we're still rolling! You have to specify the hashtag when you create the room. @fisher1000 at 18:01 PM, 28 Jun 2010 via web

The only thing I've found using that is that it creates a lot of extra "noise" in the conversation...just due to the number of tweets... @fisher1000 at 18:01 PM, 28 Jun 2010 via web
